## PLASMA MONITOR TRANSPORT SOLUTION

### FEATURES INCLUDE :

- Fits 42" and 50" plasma screens.
- Rotationally molded for maximum impact resistance.
- Built-in tilt back wheels for convenient mobility.
- Spring loaded 90° lifting handles.
- Heavy-duty removable (slide-out) locking swivel casters.
- Pull-out caster storage bin.
- Heavy-duty twist latches.
- Over 20 different inserts available to fit most screens.

### TEST RESULTS :

- Independent laboratory testing has been conducted to ascertain specific data relating to impact resistance. Controlled tests were performed to determine "G" forces applied to screens dropped from various heights. A front face "tip-over" drop (the most likely and potentially catastrophic transport accident) results in a total G-force impact of only 17.17.
